### SUMMARY

---

Motivated Computer Science graduate with hands-on experience as a Full Stack Laravel Developer through professional training at Orange. Skilled in developing secure and scalable web applications using Laravel, PHP, JavaScript, MySQL, and modern web technologies. Experienced in both backend and frontend development, including database design, authentication systems, and RESTful APIs. Passionate about writing clean, efficient code and delivering user-friendly solutions. Strong problem-solving skills, teamwork, and active involvement in technical projects.

### EDUCATION

---

**Bachelor's Degree of Computer Science, Al al-Bayt University** 02/2021 – 09/2025

### EXPERIENCE

---

**Full Stack Laravel Developer Trainee, Orange Coding School, Amman** 10/2025 – 01/2026

- Training on Full Stack development using Laravel, PHP, MySQL, JavaScript, HTML, CSS, Bootstrap.
- Built modules like authentication, role-based access control, RESTful APIs.
- Gained practical experience in real-world project workflows and teamwork.

**PHP Developer Intern, MenalTech, Amman** 10/2024 – 02/2025

- Developed backend logic and database features for a Warehouse Management System.
- Worked with HTML, CSS, JavaScript, Bootstrap, PHP, MySQL, and system design standards.
- Collaborated with the team on real-time inventory and data tracking modules.

**Data Entry Clerk, The Seventh Pearl Water Company** 2021 – 2023

- Managed data entry, documentation, and record tracking for daily operations.
- Ensured data accuracy and supported project reporting processes.

### PROJECTS

---

**Hack Me If You Can, Lightweight Web Vulnerability Scanner | Graduation Project**

- Built a lightweight Python & Flask scanner detecting XSS and logic vulnerabilities.
- Created a test app to simulate attacks, improving validation accuracy by 35%.

**Warehouse Management System, Internship Project**

- Developed a CRUD-based inventory system using PHP, MySQL, jQuery, Bootstrap.
- Implemented product tracking, stock control, and real-time updates.

**Cyber Aware, cybersecurity Awareness Platform**

- Created an interactive platform promoting cybersecurity awareness for non-technical users.
- Integrated phishing simulations, learning modules, and educational quizzes using PHP, JavaScript.

**Hisas, Online Programming Course Marketplace**

- A full-stack e-learning platform with user authentication, admin dashboard, and course filtering.
- Built with PHP, MySQL, HTML, CSS, JavaScript.

### SKILLS

---

#### Technical Skills

PHP, Python (Flask, LSTM), Laravel, MySQL, SQL Server, SQLite, HTML5, CSS3, Bootstrap, Tailwind CSS, JavaScript, jQuery, Git, GitHub, Data Structures & Algorithms, Agile, Figma

#### Soft Skills

Teamwork, Problem Solving, Time Management, Communication, Presentation

## **CERTIFICATES**

---

- Piscine Participation and Efforts (42Amman)
- IEEE Xtreme (IEEE)
- Full Stack Web Development (HTUX)
- Oracle APEX Cloud Certified Professional (Extreme Cloud Systems)

## **VOLUNTEER WORK**

---

<b>Vice Chair of IEEE AABU</b>	09/2024 – 08/2025
<b>Member of Al-3ahed Team</b>	10/2023 – 08/2025
<b>Leader of Geeks of IEEE CS</b>	04/2024 – 02/2025
<b>Secretary of IEEE AABU</b>	10/2021 – 09/2024
